

PE and School Sport Premium 2017/18

The 2017/18 funding for the PE and School Sport Premium comes as a direct response to the Childhood Obesity Strategy launched in 2016. In a bid to support the healthy lifestyles and an increased state of emotional wellbeing for pupils within Primary schools the fund is to support the 5 key indicators, traditionally seen as part of the PE and School Sport Premium. However, a focus is now to be placed on the Active 60 minutes, 30 minutes of which are to take place within a school. However, this can come in many different forms, Active Travel, Active Classrooms, Active Literacy and Numeracy for example. With new funding comes new accountability, which include additional reporting measures of those meeting the standard of swimming and a no-opt out visit to check and challenge the PE and Premium spend of 5% of Primary Schools in England. The inclusion of swimming has been triggered by a National Review of Curriculum Swimming. Please visit <http://www.swimming.org/swimengland/curriculum-swimming-report-launch/> for further information.

To learn more about the PE and School Sport Premium please visit the National Partner website of the Youth Sport Trust <https://www.youthsporttrust.org/PE-sport-premium>. Here you will find good practice case studies, a recommended reporting tool template and further guidance.

Free funded expert support to schools is available to improve the effectiveness of the PE and School Sport Premium fund from CSW Sport. This can include Governing Body briefings and one to one school support. Please contact jim.morris@coventry.gov.uk for access support.
