Please ask for: Kathryn Grahame

Date: 9th February 2018

Dear Headteacher,

PLEASE PASS A COPY OF THIS LETTER AND ALL ATTACHED DOCUMENTATION TO SCIENCE SUBJECT LEADERS/HEADS OF DEPARTMENTS

Cross Phase Moderation in the Spring Term 2018

We are writing to provide you with the details for arrangements of this term's science moderation event for schools.

Friday 2nd March 2018, at Sans Souci Teachers' Centre:

1.15pm - 4.00pm: KS1: Years 1 and 2

Friday 23rd March 2018, at Sans Souci Teachers' Centre:

1.15pm - 4.00pm: Lower KS2 Years 3 and 4

Wednesday 28th March 2018, at Sans Souci Teachers' Centre:

1.15pm - 4.00pm: Upper KS2 Years 5 and 6

Please may we ask that delegates bring 4 copies of **one pupil's collection of work**. Alternatively delegates may bring a child's book with labels highlighting where the evidence can be found. Please fill in the attached annotation sheet to provide a context to the pupil's work and to give an additional anecdotal evidence that has contributed to the teacher's judgement.

It is **necessary** that the collection of pupil's work will have been **moderated in school** in advance of the session in order to support the school's representing teacher. This is a crucial part of the process. The purpose of these moderation sessions is to confirm with colleagues the judgements of the school. Without the previous discussions in school this cannot be done.

For each session please bring the completed **Record of Moderation** forms which are attached. These are to be completed in school during your moderation process and signed. These will then be signed in the session after work has been discussed and returned to school as evidence of the process.

We will be moderating any science module within each phase and the appropriate Record of Additional Evidence for Moderation is available via the extranet.

Moderation continues to be a well attended event and teachers continue to report that their confidence in assessing whether pupils have achieved age expectations increases as a result of attending a session. Although the overarching aim of moderation of this kind is to secure teachers' judgments in moderating a pupil's portfolio of work, delegates also have the opportunity to see and share good practice in planning, delivery and collecting evidence for effective Assessment for Learning.

To further support schools moderation of science we have produced an **LA science exemplification portfolio which is available on the extranet**. Please do use these to help with your school moderation. This is a useful tool to inform your judgements. It is not possible for us to have the entire document at the moderation sessions.

If you are in any doubt about any of the arrangements for this term's Moderation, please contact Kathryn Grahame, St Alphege Infant School- 0121 705 0443 (Wednesday – Friday 8am- 4.30pm)

In order to secure your place, please email inset@solihull.gov.uk. When booking, please state your name, school and the time you wish to attend i.e. KS1 or lower/upper KS2. **Please note that there is no charge for this session.**

We are very much looking forward to working with you on 2nd, 23rd and 28th March.

Yours sincerely

K. Grahame
