

Let's Play

Let's Play is aimed specifically at primary schools and early years settings. A metal container is set up in your playground and filled with recycled materials and equipment for creative outdoor play.

THE DETAILS

- The type of Let's Play shed you choose depends upon your budget and the timescale you have for installation (usually a Let's Play shed is 10ft x 8ft but can be bigger).
- The Let's Play shed is replenished three times throughout the year replacing worn items and adding new.
- Let's Play shed content includes plastic reels, huge tubes, pipes, large boxes, old tyres, fabric, tarpaulin and much much more.
- The Let's Play shed package includes staff training.

THE BENEFITS

- Children are fully engaged in creative and imaginative open ended play.
- Children can play by themselves, mix with peers and interact with children they would not usually, which encourages cooperating through play.
- Encourages free play with little or no help or intervention needed from adults.
- Children take part without pressure.
- Children take risks in a safe secure environment helping them with confidence and self-esteem.
