

What is LESS CO2 Programme?

LESS CO2 is a schools free energy reduction programme brought to you by SMBC staff in conjunction with Ashden Staff, to help schools become more sustainable. **It's free to join**

What the programme provides

- Four half day interactive workshops over a year. The workshops teach the school representatives how to engage fellow staff, and students about energy use and energy efficiency.
- The programme offers mentor support, peer to peer learning and expert advice
- We cover real life examples of energy savings.

Workshops

Free Energy Survey

- As part of the programme you will receive a free energy survey on your building.
- With infra-red photos of your site.

WHAT DO THE WORKSHOPS COVER?

| | | | |
|--|---|---|--|
|  WORKSHOP 1 Quick wins to energy savings |  WORKSHOP 2 Engaging with your staff and students |  WORKSHOP 3 Linking sustainability into your teaching |  WORKSHOP 4 Being a sustainable school |
|--|---|---|--|

| | | |
|---|---|---|
| 1 | Energy use in buildings | Save CO2 emissions and spending on energy bills. |
| 2 | Behaviour change for staff and students | Increase energy awareness and develop a “whole school” culture of sustainable energy use. |
| 3 | Teaching about sustainability | Integrate energy into lesson plans and curriculum. |
| 4 | Being a sustainable school & results | Whole school approach, sharing what has been learnt and results. |
