Energy - Welcome

Solihull Council Plan 2018-2020

A step to 2020, A Stride to 2025...

Our Purpose:

'Great Lives and Great Services':
To be an organisation that improves lives by delivering great services

Our Vision:

Where everyone has an equal chance to be healthier, happier, safer and prosperous through growth that creates opportunities for all

Our Values:

Open, honest, clear, approachable and keeping our promises

1

Securing inclusive economic growth

2

Planning and delivery for Solihull's low carbon future

3

Managing demand and expectation for public services

4

Developing and delivering our approach to services for adults and children with complex needs

5

Making the best use of our people and physical assets

Priorities

Energy - Less CO2 Programme

What is LESS CO2 Programme?

LESS CO2 is a schools free energy reduction programme brought to you by SMBC staff in conjunction with Ashden Staff, to help schools become more sustainable. **It's free to join**

What the programme provides

- Four half day interactive workshops over a year. The workshops teach the school representatives how to engage fellow staff, and students about energy use and energy efficiency.
- The programme offers mentor support, peer to peer learning and expert advice
- We cover real life examples of energy savings.

Free Energy Survey

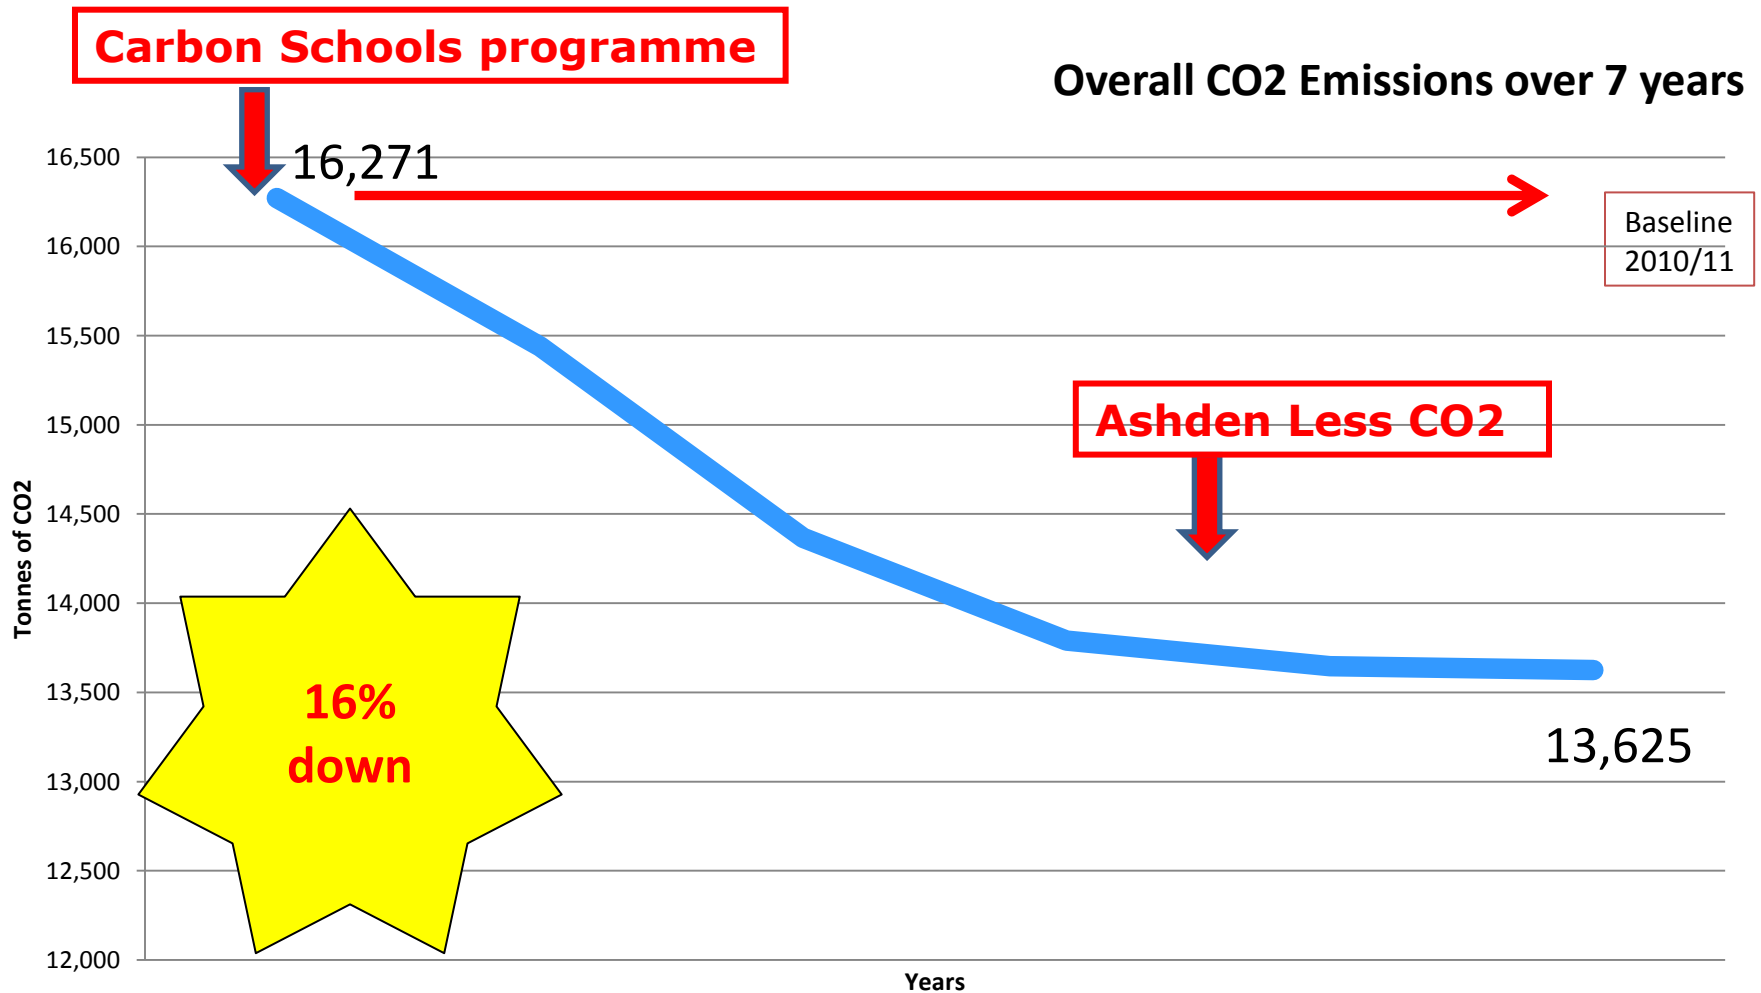

- As part of the programme you will receive a free energy survey on your building.
- With infra-red photos of your site.

 <p>WORKSHOP 1 Quick wins to energy savings</p>	 <p>WORKSHOP 2 Engaging with your staff and students</p>
 <p>WORKSHOP 3 Linking sustainability into your teaching</p>	 <p>WORKSHOP 4 Being a sustainable school</p>

1	Energy use in buildings	Save CO2 emissions and spending on energy bills.
2	Behaviour change for staff and students	Increase energy awareness and develop a "whole school" culture of sustainable energy use.
3	Teaching about sustainability	Integrate energy into lesson plans and curriculum.
4	Being a sustainable school & results	Whole school approach, sharing what has been learnt and results.

CO2 Emissions Schools & Academies

Ashden Programme Started December 2015
