

# SCHOOL'S RECYCLING CHALLENGE

Waste Electrical &  
Electronic Equipment (WEEE)  
& Batteries

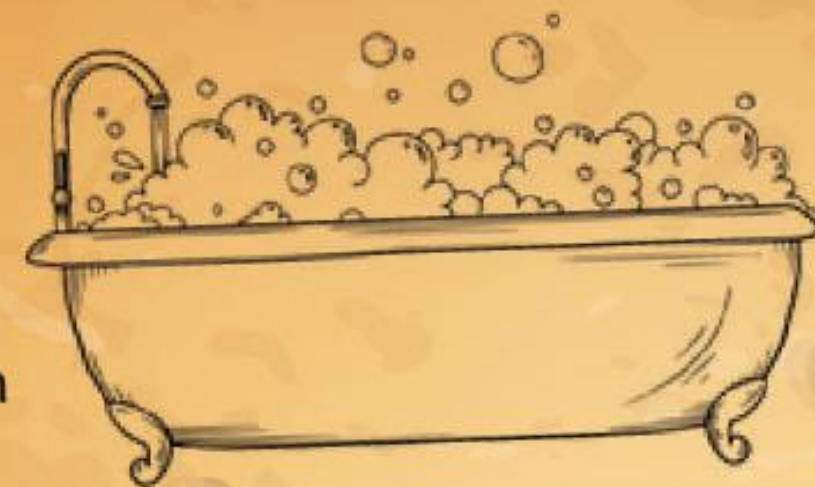

Research suggests that UK homes are full of **broken and unwanted electricals.**

We want **you** to find them. Whether this is an old remote, toys, devices or cable.

Anything with a **plug, battery or USB** chargeable dependent qualifies.

## Bathroom

Electric Shavers  
Towel Rail  
Heaters  
Hair Dryer  
Electric Toothbrush  
Shower Radios

## Bedrooms

Lamps • Old TV's • Radios • Clocks

Kettles • Toasters • Coffee Machines  
Blenders • Whisks • Steamers  
Microwaves • Fryers • Grills  
Toastie Makers • Irons • Clocks  
Food Processors • Scales  
Thermometers

# Remember to Remove Batteries!

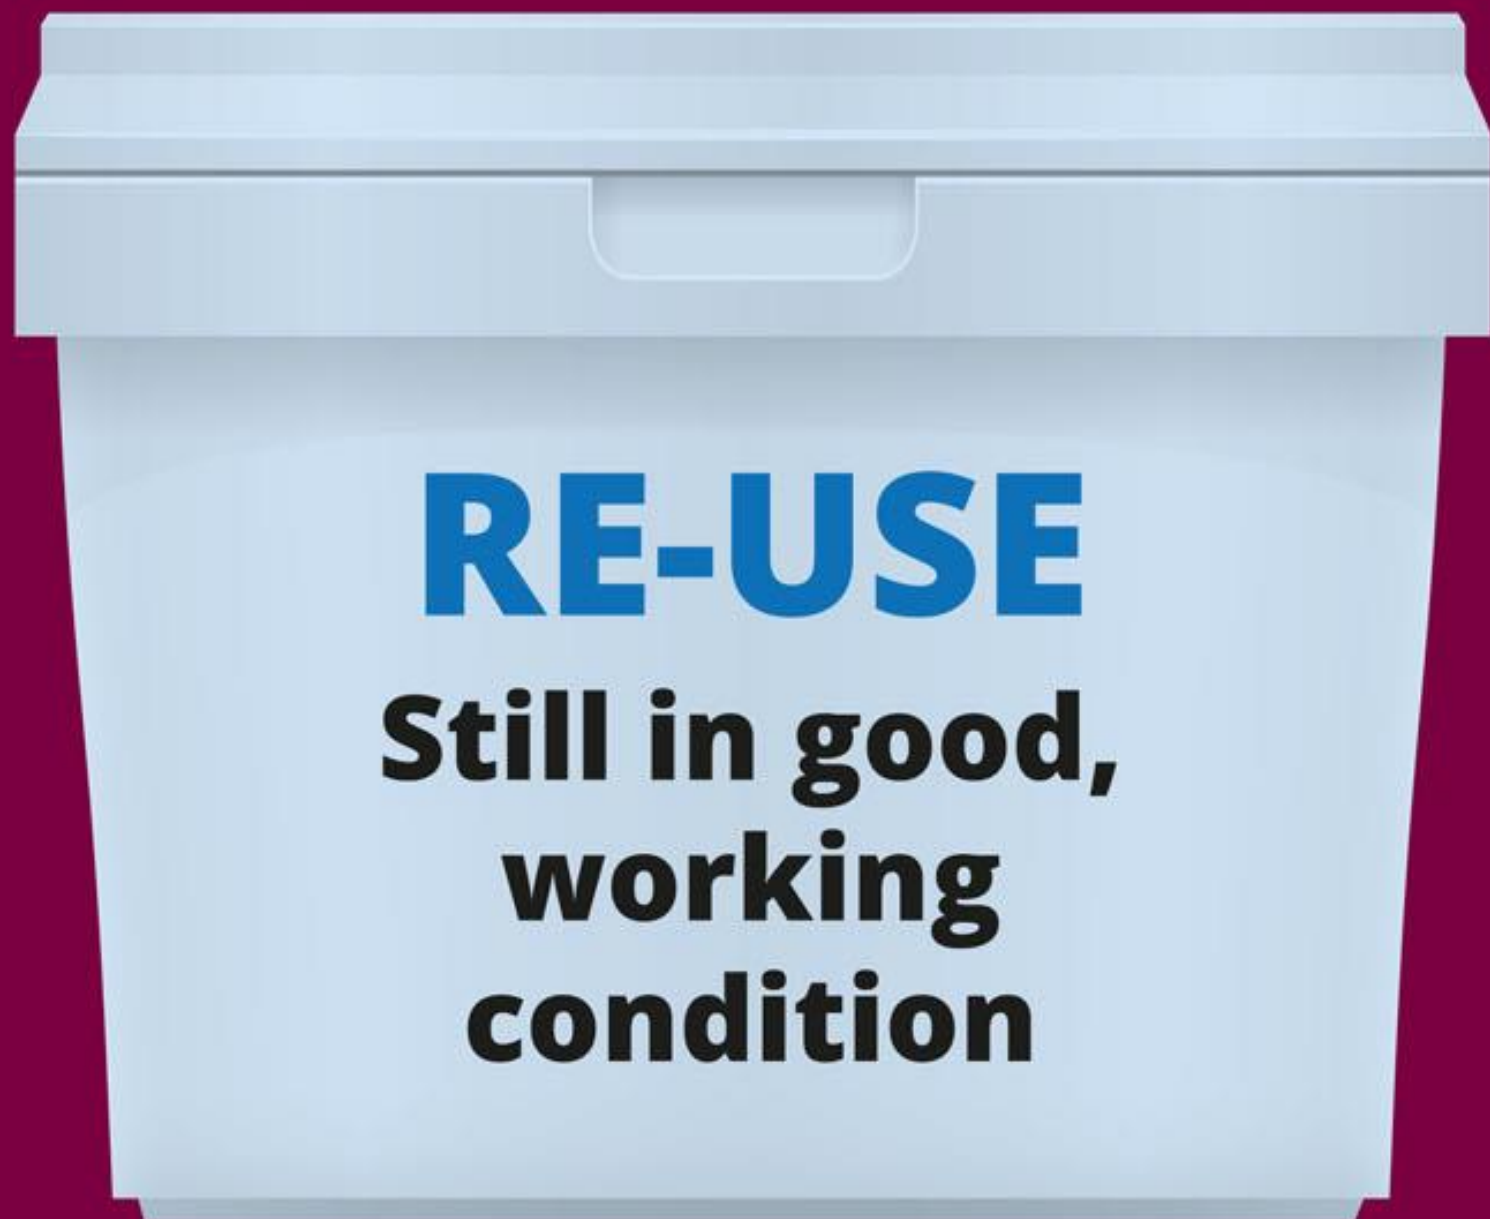

Batteries are the most common source of fire hazard within the waste and recycling industry.

This is because batteries are being thrown in the bin, or left in devices when they are being recycled, which is very dangerous as the material gets stored and shredded.

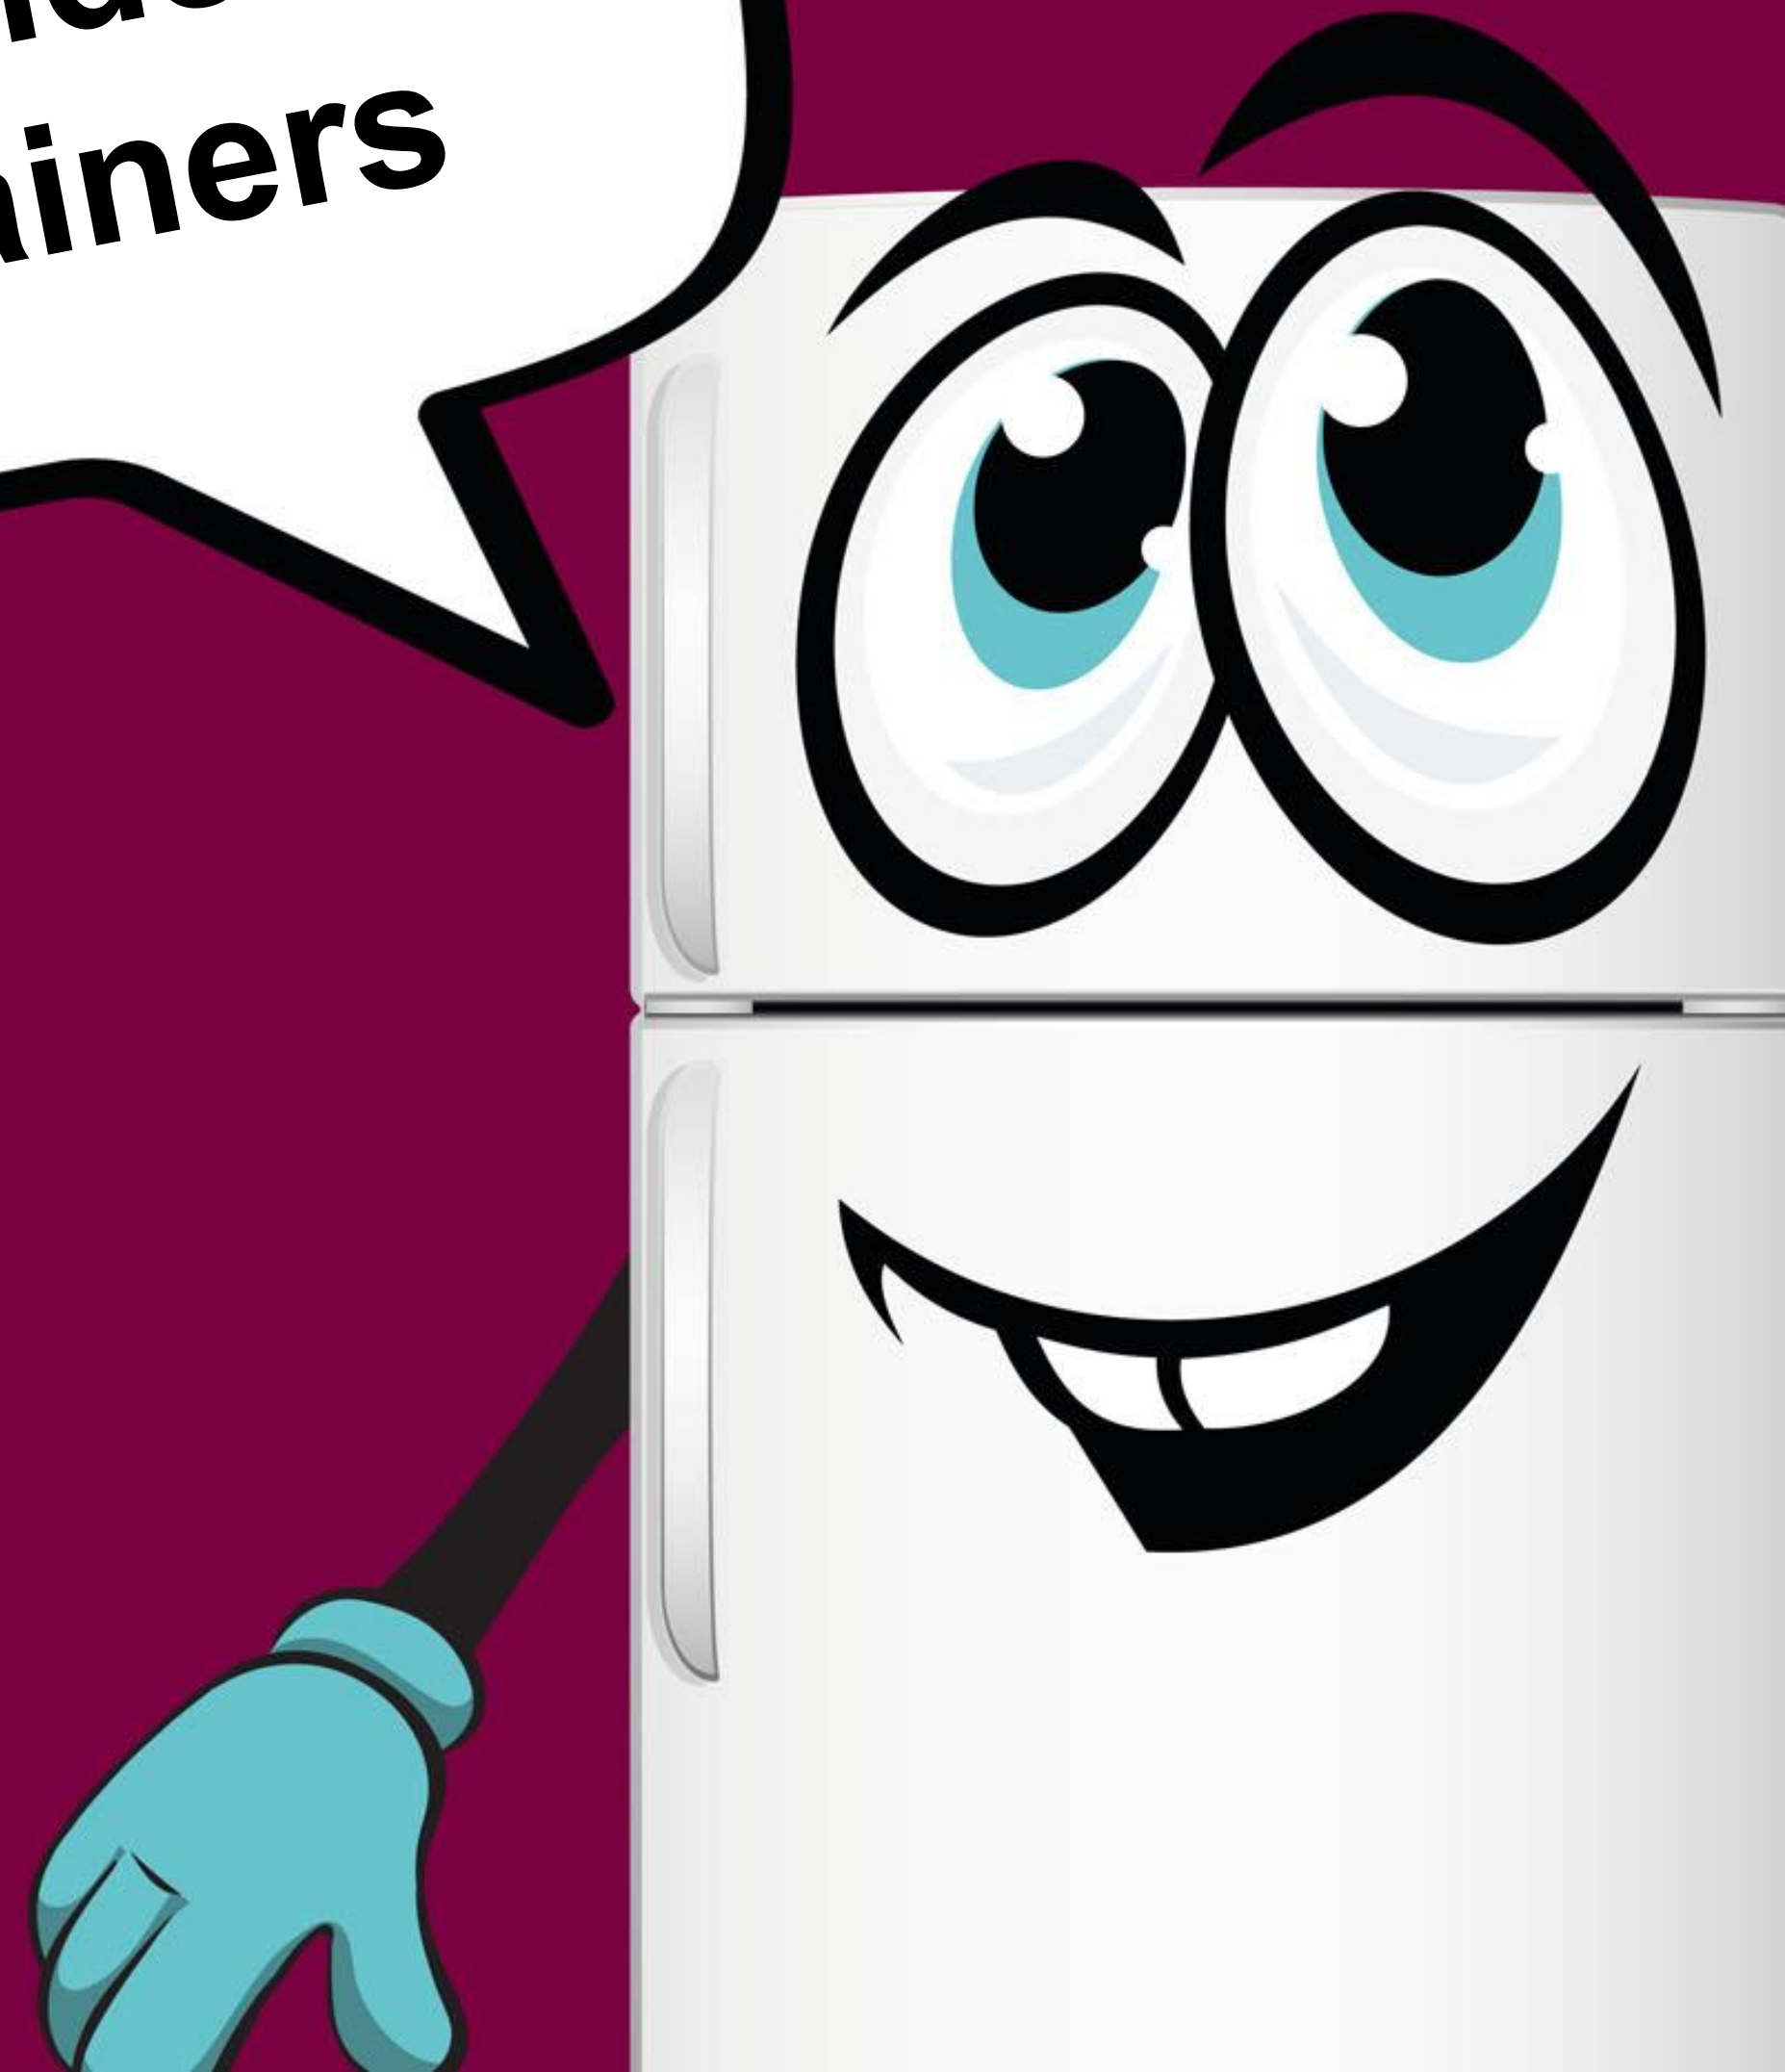

Removing batteries reduces fire risks and helps keep key workers safe

Your school  
will be provided  
with 3 containers

## RECYCLING

The school who returns the most electricals for recycling (kg) shall receive **10 x £25 vouchers** for the Square Shopping Centre for a pupil raffle!

## RE-USE

The school who returns the most electricals that are collected by our reuse partners (units) shall receive **10 x £25 vouchers** for the Square Shopping Centre for a pupil raffle!

## BATTERIES

The school who returns the most batteries for recycling (kg) shall receive **10 x £25 vouchers** for the Square Shopping Centre for a pupil raffle!

## \*BONUS\*

For any school that wins in any of the three categories and does so with a weight greater than 1,500 kg; then we **will double the voucher value to £50!**
