

Resourcing the world

Solihull Sustainable Schools  
Conference : November 2020

Ian Scattergood - Regional Account Manager  
Richard Lewis - Commercial Manager

# Agenda

1 Solihull MBC Overview

2 Veolia

3 The Improvement Challenge

4 Confidential Waste

5 Competition Time

# Service Scope

## Contract & Provision of Services

- Recycling
- General Waste
- Food Waste
- Cardboard
- Hazardous Waste (if required)
- Confidential/Secure Destruction
- One Offs

## Combined Overview August 19 - July 2020

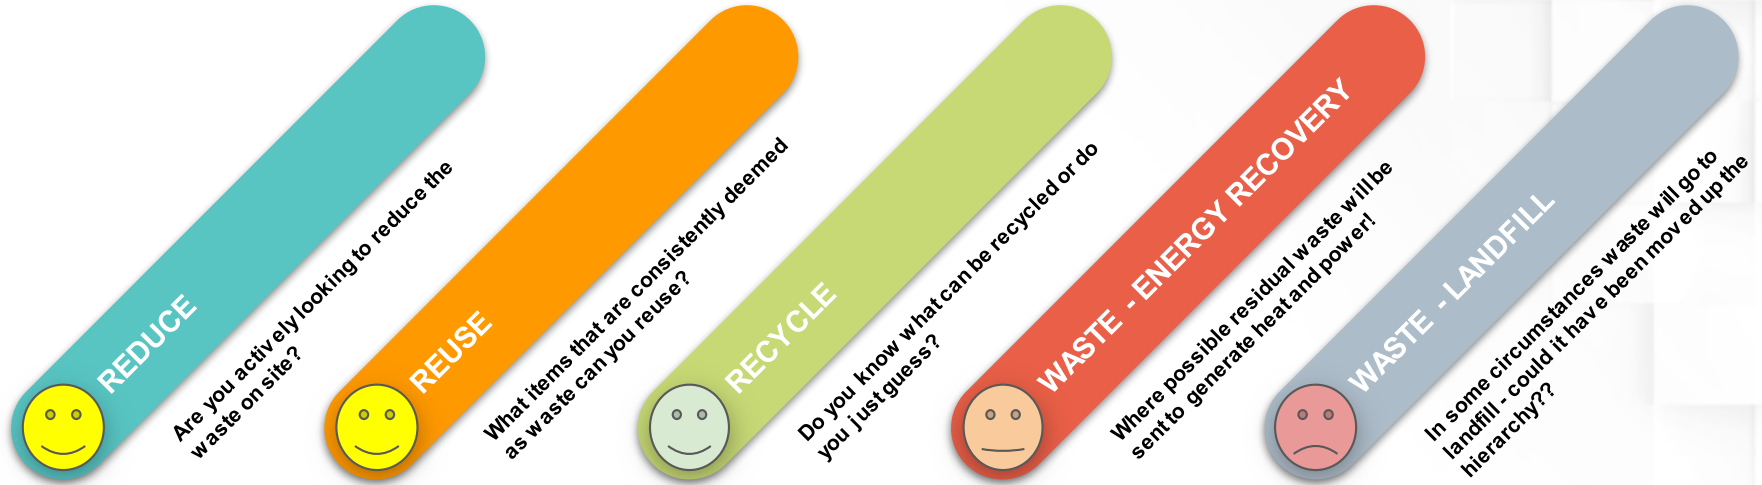

- 1 million kgs of material collected
- Over 30% recycling
- 353000 kg of carbon saved :
  - 1000 treesplanted
  - 214 Houses powered for a year
  - 132 Cars taken off the road
- 99.96% Landfill Diversion (Schools achieved 100%)

## What Next 2020 - 2021?

- Roll out of Confidential Paper Collections
- Identifying further ways to reduce the waste generated across the estate

# The Key To Improve?

Think! Can we 'avoid' the waste elements?

## What is DMR/Mixed Recycling?

### NO THANKS

Rigid plastics, food trays or coffee cups

Wet or contaminated card

No tissues, hand towels or napkins

Other metals & non compliant materials

## Single Source: The Answer?

- Contamination will be identified within all DMR/Mixed Recycling Containers
- 3 strike rule – DMR service then removed
- Have you got over 60% cardboard in the DMR?
- Have you 40% paper in the DMR?
- Recent studies of one of SMBC's sites showed less than 25% of the containers sampled actually contain DMR!
- Could you switch to single stream for your cardboard and paper collections???

### WHY?

1 Item - Easily identified by site

Benefit from cheaper collections

Reduces potential for contamination

Could increase recycling %

# Confidential Waste Solution

- Ensures GDPR compliance for all paper documents
- Single pricing for all paper collections, containing confidential and non-confidential documents
- Bags, containers or bins available to suit site requirements
- Other confidential materials - CDs, disks, hard-drives, films etc. can be collected separately to paper and securely destroyed.

## WHY?

All paper items can be treated as one - avoiding the need for sensitivity of data to be identified

Reduced GDPR risks

Paper only guidelines reduce potential for contamination

All paper items are recycled once securely shredded

# Confidential Waste Solution

[Veolia Confidential Services](#)

# Innovation

Leeds ERF

Bag 2 Bag

Electric Vehicles

SELCHP

Chineham ERF

Truckwash

Dagenham Plastics

East Sussex IVC

Newlife Paint

Pro-Grow

Bridgnorth TV recycling

# PROCYLE

*Are you struggling to find a recycling solution for specific waste streams? PROCYLE is the solution for you.*

PROCYLE boxes enable you to collect and process previously difficult to recycle waste streams.

So you can increase your recycling rate and divert more from landfill.

Large - 96L  
40x40x60cm

Medium - 31L  
25x25x50cm

Small - 16L  
25x25x25cm

PROCYLE

## Competition Time

- ***To WIN one of 5 Procycle Boxes (material of your choice...)***
- *Just tell us in no more than 200 words :*
  - 'How my school will reduce our waste during 2021'
  - Send answers to Sarah Lardener ( [slardner@solihull.gov.uk](mailto:slardner@solihull.gov.uk) ) by 14th December and the winners will be confirmed by 18th December

# Questions and Answers

Please add the to the chat feature on the meeting and Sarah will collate and respond.
