

## Will Hargreaves

I currently work at the Greater Birmingham Chambers of Commerce and Coventry and Warwickshire Chambers of Commerce as a Policy & Research Advisor (Environmental Sustainability). I have an interest in progressing sustainable policy thinking, whilst coupling it with commercial requirements and improving business engagement.

I have worked in a range of sales and customers focussed position, including recruitment and hold a BSc in Geography and MSc in Environmental Management and Sustainability. In my spare time, I enjoy hiking, rugby and martial arts.
