What is a Job in Sustainability?

- A job which overlaps the environmental, social and economic boundaries, and has either a strong environmental or social justice dimension (EAUC)
- Jobs in sustainability can have sustainability as the core focus, main responsibility or small aspect of the organisation's vision and mission.
- Most jobs in sustainability have a focus area.
- They are found in all sectors:
 - Private companies
 - Public bodies (local authorities, NHS)
 - Education and research
 - Third sector (charities etc.)
