

VOTESFORSCHOOLS

'Will climate change affect children's rights?'

We aim to get 100,000 children's voices heard.

Each week VotesforSchools creates resources for teachers or youth leaders to hold a debate or discussion on a topical issue. The children and teenagers then have a chance to vote and comment on the topic. They then share that information with those in authority- hugely raising the profile and impact of pupil voice.

VotesforSchools typically receives around 30,000 votes each week. Examples of resources can be found [here](#), and of data reports [here](#).

In the run up to the United Nations conference on climate change in Glasgow this November, **COP26**, they are working with a range of partner organisations including **UNICEF UK** to explore with children climate change and its effect on their rights. There will be a FREE package of resources to facilitate a debate at Primary, Secondary and 16+, and the chance for children and young people to vote and comment on the question:

'Will climate change affect children's rights?'

We aim to get 100,000 children's voices heard.

Sign up [here](#) to get your children and young people involved.

Be informed.

Be curious.

Be heard.
