Life below water

Level 3 – Global Goals (link 2)

Global Goal 14 – Life below water

During Year 4's science learning about healthy eating, the pupils produced a food chain illustrated as a jigsaw.

Discussions covered:

- What happens when 1 piece of the jigsaw becomes extinct
- Impact mankind has on over fishing
- Plastic waste
- Increase of sea temperature
- Local produce vs food having to travel

The pupils followed up their work by making

- Reduce waste video
- Posters
- Writing letters to Blue Peter applying for a Green badge
- Food diary + food mileage calculation

Danny Morris, Marine Biologist, delivered a speech to our school councillors to discuss about sea pollution (and his diving hobby).
