The Police are the only agency who can make a referral in to Channel. Channel is the process by which structured interventions are implemented for vulnerable individuals identified as needing support. This is delivered through a multi-agency approach.

Support to particular individuals (e.g. pupil support process, access external support)

Targeted activities related to preventing extremism (e.g. use curriculum to challenge extremist narrative)

Universal actions (e.g. review antibullying policies, encourage active citizenship and pupil voice)

Supportive interaction as appropriate

Channel referral pathway

If you have concerns about a child or young person and feel a multi-agency response is required, a referral must be made through the MASH process if the child is at risk of significant harm, and through the Prevent Inbox. If the concern is below Threshold 4, then a referral to the Prevent Inbox must be made.

Channel can support children and young people before they reach crisis point. It is a way of giving support early to prevent problems later on. Channel brings the different agencies who are involved with a child together so they can share information.
