

**Solihull Governor Services**  
**Solihull School Governors' Training Programme**

**Understanding School Data (focus on RAISEonline)**

This seminar will enable governors to develop an understanding of achievement data in RAISEonline. It will link Ofsted's achievement judgement criteria with RAISEonline. The course is generic to primary and secondary with key principles regarding progress and attainment examined. Schools will be provided with their own RAISEonline reports to analyse, working with other governors attending the training.

The intended learning outcomes are that governors will begin to make judgements using Ofsted criteria regarding the achievement of pupils in their school. This triangulates judgements of the quality of teaching. Governors will be equipped to ask challenging questions about the achievement of pupils in the school that will support them to fulfil their role of challenge and support for the leadership and management of the school.

The seminars will cover the following Ofsted Links: The achievement of pupils; the quality of teaching and the quality of leadership and management.
