

The story of Creation

In the beginning there was nothing but darkness. The darkness was empty.

On the first day God created light so that there was darkness and light. God called the light 'day' and the dark he called 'night'.

On the second day God created the sky and put it over the Earth.

On the third day God created dry land and sea. God created plants and trees to grow on the earth.

On the fourth day God made the sun, the moon and the stars to shine in the sky.

On the fifth day God made all the creatures to swim in the seas and all the birds to fly in the sky.

On the sixth day God created all the animals that live on the earth and he made a man and a woman. God told the man and the woman that they were in charge of the fish, the birds and all the wild animals, and that the grains and the fruits from the plants and trees were for food.

By the seventh day God had finished his work and he set the seventh day apart from the others and made it a special holy day.
