

## **Early Years Looked After Children Co-ordinator Core Training**

*Early years provision can be a powerful means of early intervention, giving children the social experiences and structured play, so that they could access the learning opportunities available to them throughout their lives and catch up with their peers. Early years providers also provide the opportunity for early diagnosis of possible delays, are an additional source of stability in children's lives, and can provide support for health needs and habits.*

### **Target Audience:**

The identified EYs LAC Co-ordinator in PVI settings and schools

### **Overview of the training:**

- Awareness raising of the needs of children in care
- Roles of professionals including the role of the Virtual School
- Tools for the Looked After Children Co-ordinator
